PROFESSIONAL SUMMARY

Motivated Computer Science & Engineering undergraduate at ABES Engineering College with hands-on experience in C++, Python, JavaScript, React.js and Power BI. Solved 400+ coding problems on CodeChef and LeetCode, building a strong foundation in Data Structures, Algorithms and Object-Oriented Programming. Developed responsive web interfaces and Python data visualizations, and earned Microsoft Power BI and Simplilearn certifications. Seeking a Software Engineer / SDE internship to build reliable, user-focused software.

EDUCATION

ABES Engineering College, Ghaziabad 2025 – 2029 (Expected)
B.Tech, Computer Science & Engineering (currently in 2nd Year)

Madani Inter College 2024
Class XII, UP Board — 92%

Madani Inter College 2022
Class X, UP Board — 84%

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Operating Systems

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript (ES6)
Web Development: HTML5, CSS3, React.js, Responsive Design, DOM Manipulation, Frontend Development
Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Time Complexity Analysis, Debugging
Data & Visualization: Power BI, Python, Data Analysis, Data Visualization, Dashboards
Tools: Git, GitHub, Version Control, VS Code

PROJECTS

Amazon-Style E-Commerce Homepage HTML5, CSS3, JavaScript

- Built a responsive e-commerce homepage with **5 components**, delivering a consistent layout on desktop and mobile screens.
- Organized styling into reusable CSS classes, reducing duplicate code and keeping all 5 components visually consistent.
- Integrated Font Awesome icons across all **5 components** to improve visual consistency and usability.
- Added interactivity with JavaScript DOM manipulation, making the **5-component** homepage dynamic and user-friendly.

Data Visualization Project Python, Data Visualization

- Analyzed datasets in Python and built charts and graphs that turned raw data into clear visual insights.
- Identified trends and patterns in the data, presenting findings visually to support faster decisions.
- Earned Microsoft Power BI certification (1 of **4 certifications**), extending Python charting skills to dashboards and reports.

CODING & PROBLEM SOLVING

- Solved **335+ problems** (350+ on CodeChef, 50+ on LeetCode) in C++, improving problem-solving speed and accuracy.
- Applied **6 core DSA topics** (arrays, strings, recursion, sorting, searching and time-complexity optimization) to build efficient solutions.

ACHIEVEMENTS

- Improved from **84% in Class X** (2022) to **92% in Class XII** (2024), an **8-point rise** in UP Board exam performance.
- Maintained active coding profiles on **3 platforms** (CodeChef, LeetCode, HackerRank) to practice consistently and track progress.

CERTIFICATIONS

Power BI (Microsoft Learn): data visualization, dashboards and reports
HTML (Simplilearn): page structure and semantic markup
CSS (Simplilearn): styling, layouts and responsive design
JavaScript (Simplilearn): DOM manipulation and interactive web pages
AWS Academy Graduate – Machine Learning Foundation(20 hours)
